Cambridge, MA 02138

Dear Mr. Decoulos:

In response to your recent request, we have enclosed a digital scan on CD of the chart filed among our holdings as Records of the Coast and Geodetic Survey, Record Group 23, Topographic Manuscript Charts, T-2389. This copy was made by our preservation office because of the relatively poor condition of the paper original.

The image on this CD was made from the original chart that has been accessioned into the Archives of the United States and this chart is filed among our cartographic holdings as noted above.

We hope you find this copy useful.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Smith".

RICHARD H. SMITH
