Dear Jim,

I am writing in response to receipt of your notes of April 8, 1996. First of all, that site viewing was not a meeting of the Conservation Commission, only two members being present.

Secondly, I can not take responsibility for reviewing your notes and informing you of any errors. I do not consider those notes 'minutes' of our on-site.

That said, I am glad you are willing to work with us to find a creative solution to all of our concerns and I look forward to meeting with you next week.

Sincerely,

A handwritten signature in black ink that reads "Mary Elizabeth Pratt". The signature is written in a cursive style with a long horizontal stroke extending to the right.

Mary Elizabeth Pratt, GHCC Chair.
