ERW-4 Install.jpg; C:\Photos\2004\081804\Eagle ERW-4 Detail.jpg;

Cynthia,

Attached are two pictures from yesterday of the South Meadow Brook outfall and the interior of the outfall pipe. Also attached are two pictures from this morning of the installation of the fourth 4 inch well, ERW-4.

The first 4 inch well from yesterday, ERW-1, had no product this morning. ERW-2 had 0.23 feet of product. I will obtain product depths of ERW-3 and ERW-4 before I leave today.

We have created a "Z" pattern with the four 4 inch wells. The photo entitled "Eagle ERW-4 Install.jpg" provides a perspective on their locations. ERW-1 is located in front of the truck on the left and ERW-3 is located on the right.

Jim
